The “**current**” column gives the current standard of a student’s work in the subject, based on all completed assessments to date. This grade becomes more reliable as more assessments are completed and should be treated with a little caution at the start of the year. The current grade column is colour coded based on how the current grade compares to the student’s “**target**” grade, in the same way as shown in the bar chart above.

We hope that, as the assessment information grows throughout the year, you will find Go 4 Schools helpful and informative. If you have any questions about the system, please do not hesitate to contact the school.
